

Experiment Instructions

Welcome to the experiment! Below are the steps you must follow to carry it out.

Steps to follow:

You must read and sign the consent form.

A brief questionnaire will be conducted in which you will be asked for basic information (age, gender, vision problems, whether you wear glasses, etc.).

You will be introduced to your partner with whom you will carry out the experiment.

Both of you will be accompanied into the rehearsal room.

You will be asked to sit in a chair, put on headphones, and get comfortable with one of the guitars, checking monitor returns and sound levels.

You will be asked to practice, for 5 minutes, with your partner the selected sequences, in order to learn what you must play to carry out the experiment.

The start of the recordings will be indicated, clearly stating what you must do.

When the first part of the experiment is completed, you will be asked to change position in order to carry out the second part.

At the end of the experiment, you will be provided with information about the results obtained, and you may ask any questions you have.

If at any time during the experiment you wish to abort it, you may do so.

We hope these instructions have been useful to you and that you can carry out the experiment without problems. Thank you for participating!
